

## Silicon Eurocluster Empowers 25 SMEs with Green Financial Support

- Silicon Eurocluster has awarded €3,600 each to 25 SMEs across Europe to fund external consultancy services, enabling sustainable transformation within the electronics sector.
- The initiative supports SMEs in diverse electronics fields, including AI, photonics, and energy harvesting, promoting innovation and sustainability.
- This program strengthens European competitiveness while advancing green and digital transformation in the electronics industry.

**10th December 2024** – The Silicon Eurocluster initiative has concluded its Green Financial Support open call, selecting 25 innovative SMEs from across Europe to receive funding aimed at driving sustainable transformation within the electronics sector. Each SME has been awarded €3,600 in financial assistance to engage external consultancy services, helping them transition toward greener and more sustainable business practices.

This call garnered widespread interest, attracting applications from SMEs across the electronics ecosystem. The initiative reflects Silicon Eurocluster's commitment to enhancing European self-sufficiency, competitiveness, and resilience in the electronics value chain, with a focus on empowering SMEs to adopt sustainable practices. By facilitating access to green consultancy services, the project aims to foster a greener, more digital European economy, aligning with EU sustainability goals.

### List of Awarded SMEs

The selected SMEs represent a diverse array of innovative solutions and services across Europe:

- AzurIA
- LIBRA AI TECHNOLOGIES ΙΔΙΩΤΙΚΗ ΚΕΦΑΛΑΙΟΥΧΙΚΗ ΕΤΑΙΡΕΙΑ
- Telprom informacijske tehnologije d.o.o.
- HYPEX, d.o.o.
- SMT d.o.o.
- SunEdison d.o.o.
- Mass master, d.o.o.
- CHARVET DIGITAL MEDIA
- RebelDot Solutions SRL
- Knowtion GmbH
- BALMAR d.o.o.

“Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or [name of the granting authority]. Neither the European Union nor the granting authority can be held responsible for them.”

- GammaO
- DRACULA TECHNOLOGIES
- IDEEE
- Tri Sense, d.o.o.
- 4D for Sound SAS (delair labs)
- AXENCO
- nOgravity Films
- Asclepios Tech
- VOGO
- ECO-INNOV
- ITEN
- INOCEL Development
- WeavAir
- Latitude

This milestone is part of Silicon Eurocluster's broader mission to bolster innovation and sustainability in the European electronics sector. By investing in SMEs, the initiative is driving the adoption of eco-friendly approaches that address global environmental challenges while strengthening the competitiveness of European industries.

## About Silicon Europe Alliance

Silicon Europe Alliance is a Europe-wide network of 12 leading cluster partners, focused on SMEs and including organizations from industry, research, and the public sector. We bring together >2000 (number to be updated) specialists in innovative electronics to solve challenges and deliver sustainable solutions for the future.

## About Eurocluster Project

The Eurocluster Project is a collaborative initiative focused on strengthening the European economy by supporting SMEs through innovation, skills development, and cross-sectoral collaboration. By connecting clusters across Europe, the project aims to drive sustainable growth and competitiveness in various industries.

with the participation of 10 clusters from France, the Netherlands, Italy, Germany, Portugal, Austria, Sweden, Bulgaria and Spain and
